**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Specification***

1. The disclosure is objected to because of the following informalities: throughout the specification, extraneous spaces are innumerable words, e.g., "Ziegler -Natta" in line 6, of page 1, "i t" in the last line of page 2, "po lyolefin" in line of page 7, the list goes on. Appropriate correction is required.

### ***Claim Objections***

2. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. Currently, claim 30 is missing, therefore claims 31-37 is renumbered as 30-36 respectively.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 24-26 and 29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 1 of claim 24, the phrase "is said" appears to be "in said". Clarification and corrections are requested.

In claim 29, the use of relative term "increased" renders the limitation of "an increased number of chiral exposed active sites" indefinite.

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 30-33 and 36 (renumbered) are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The solid crystalline support material and chiral agent components are critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Since there are no detailed disclosures in the application regarding the compositions of solid crystalline support material and chiral agent for metallocene catalyst and single site catalyst, one of ordinary skilled in the art can not practice the invention as claimed.

***Allowable Subject Matter***

7. The search indicates that there is no prior art teaches the subject matter of the instant claims.
